### One-Stop Shop for Airport Transport

A new consortium of independent airport transportation operators around the world have opened a Web site, [GoAirportShuttle.com](http://GoAirportShuttle.com). The site handles information and booking for transportation at 110 airports in England, Scotland, France, Italy, Spain, Mexico, the United States and Canada. The shuttle services, all locally operated, have adopted a common umbrella, GO Airport Shuttle, and are redoing their fleets in a common green-and-white design.
